NINE PILLARS OF
PATIENT EXPERIENCE

The waiting room is a trust checkpoint.

Silence during delays feels like indifference.

“

Patients will forgive a delay; they won't forgive being ignored through it. The waiting experience sets the emotional tone for everything that follows.

Arrival & Check-In

1. Acknowledge every patient within seconds of arrival, even when you're slammed.

2. Communicate wait times proactively — and update them when they change.

3. Coach front-desk staff that they set the tone, not just the paperwork.
