NINE PILLARS OF
PATIENT EXPERIENCE

“Connection matters as much as care.”

PHASE 2 · VISIT · PILLAR 5 OF 9

SWIPE

Connection matters as much as care.

Patients remember how they felt, not just what was said.

CLINICAL ENCOUNTER

VISIT

“

Clinical excellence is the expectation. Feeling heard is what patients tell their friends about — and what drives them to follow the plan you give them.

Clinical Encounter

1. Sit down, make eye contact, and let the patient finish their first sentence.

2. Explain next steps in plain language before they leave the room.

3. Close with “What questions do you still have?” rather than “Any questions?”
