PHASE 1 · PRE-VISIT

NINE PILLARS OF
PATIENT EXPERIENCE

3 Pre-Visit Communication

“Clarity reduces anxiety.”

SWIPE

Clarity reduces anxiety.

Patients don't just want reminders — they want to feel prepared.

“

Uncertainty before a visit drives no-shows and day-of friction. Preparation is a quiet signal of respect for a patient's time and nerves.

Pre-Visit Communication

1. Send what to bring, where to park, and what to expect — not just a date and time.

2. Make intake forms mobile-friendly and pre-fillable.

3. Give patients an easy way to ask a question before they arrive.
