HMCG

CULTURE OF CARE

THE 3RD OF FOUR VALUES

Empathy

Seeing the visit through the patient's eyes.

SWIPE

Empathy connects us to the people we serve.

We work to understand how every touchpoint feels from the other side of the counter — and design each one to lower anxiety, not just move the process along.

What Empathy looks like

1. Map your process from the patient's point of view, not the org chart.

2. Ask how something felt — not only whether it got done.

3. Shape every message and every space to reduce worry.

HMCG

CULTURE OF CARE

THE FOUNDATION OF EVERYTHING WE DO

- *Accountability*
- *Compassion*
- ***Empathy***
- *Collaboration*

Build a culture of care in your practice.

We help healthcare teams turn these values into everyday patient experience — across every one of the Nine Pillars.
